

COOKIE POLICY

To make this site work well, sometimes we install in your dispositive some small data files called "cookies". Even most large sites do the same.

WHAT ARE COOKIES?

A cookie is a small text file that sites save on your computer or mobile dispositive while you are visiting them. Thanks to cookies the site remembers your actions (i.e. login, language, characters dimensions and other display settings so that you do not have to re-enter them again when you come back to the same site or you surf from one page to another.

Extended information on cookies use

.....use c. to make their services simple and efficient for the user who is looking at the pages.....

Users visiting the site will see a few amount of information inserted into the devices they are using, either computers or mobile devices, in small text files named "cookies" saved into the directories used from user browser web.

There are different kind of cookies, some to make site use more effective, some to enable some functions.

Analyzing them in detail our cookies allow you to:

- ° store the preferences entered
- ° avoid to enter the same information several times during the visit so as user name and password
- ° to analyze either the services use and the contents furnished by..... to optimize the navigation experience and services

Cookies types used by.....

Here below the different types of cookies used by... according to the use purpose.

Technical cookies

This type of cookies allow the correct operating of some site sections. They are of 2 different categories, persistent and of session:

- Persistent: once the browser closed they will not be destroyed but they remain till a certain expiring preset date
- Session cookies: they are destroyed any time the browser is closed.

These cookies, always sent from our domain, are necessary to view the website correctly and they are related to the technical services offered, they will be always used and sent, unless the user modifies his own browser settings (invalidating in that way the site pages view)

Analytical cookies

These kind of cookies are used to collect information about sites use. www.....will use these information on anonymous statistical analysis in order to improve the site use and to make the contents more interesting and connected with the users desires. This cookie type collects anonymously data on the users and on how they got to the Site. The analytical cookies are sent by the Site Itself or by third party domains, in detail with GA with IP anonymized.

Google Analytics (Google)

GA is a web analysis service furnished by G.I. G uses the personal data gathered to trace and examine the use of this Application, fill in report and share them with the other services developed by G. G. could use the Personal Data to personalize and contextualize its publicity network spots. Personal Data gathered: Cookies and Use Data. Processing location:.....

Analyze services third party cookies

These cookies are used to gather information about the Site use from Users point of view anonymously like: pages visited, permanence time, origin traffic source, geographic origin, age, gender and interests for marketing campaigns. These cookies are sent by third party domains outside the Site.

Profiling cookies

Those are cookies necessary to create users profiles to send advertisements in line with the preferences shown by the user inside the Site pages. Further current legislation, www..... it is not obliged to ask for permission for technical and analytics cookies, since they are needed to give the requested services.

For all other type of cookies the consent could be given by the User in one or more of the following ways:

- ° Through particular used browser configurations or the relative computer programs used to surf the pages composing the Sites.
- ° Through modifying the settings in use of third party services.

Both this solutions could not allow the user to use or visualize some Site parts.

Web Sites and third party services

The Site could contain links to other Web Sites that have their own Privacy Policy which could be different for the one adopted by www..... and that it is not responsible for these sites.
